

**PRELIMINARY
PROGRAM**

Thinking **INSIDE** the BOX

**5th – 7th
September 2024**

Padova Congress
(Convention Center)
Padua, Italy

Spotlight on Anaphylaxis and Food Allergy Thinking **INSIDE** the Box

The main innovation of GA²FA 2024 will be to develop a breakthrough thinking with an in depth appraisal for what already exists **INSIDE THE BOX!**

How can we maximize the GA²LEN Guidelines 2022 and many other guidance documents in the literature? How can we progress steadily in food allergy and anaphylaxis science in different context and with different, usually scarce, resources?

Focusing on the constraints around us, learning each plank **IN THE BOX** and practicing daily will ultimately allow us to move beyond - outside the box. Drawing in new ideas can be an effective strategy only if there are already clear parameters in mind, if there is a goal that the person or group is working towards.

All together jointly with the ANACARE Working Groups we will find the path to turn a problem into an opportunity unraveling any problem's potential. We will foster creativity (and will have fun...) solving the puzzles of food allergy and anaphylaxis diagnosis & management. Exploring the existing elements, we may end up removing some, multiplying others, reorganizing them and sometimes finding the solution in front of us.

The goal of changing the landscape of care for our patients is in **YOUR** hands: don't miss the chance to take part in this ambitious adventure at GA²FA 2024 with the ANACARE Working groups!

A global panel of Key Opinion Leaders have been chosen for the GA²LEN ANACARE Scientific Committee and GA²FA Faculty to fully cover the broad range of disease issues that will be highlighted during this comprehensive 2 and half day event. Local Experts will also be invited to join the GA²FA Faculty on the grounds of their renowned up-to-date knowledge.

We cannot wait to welcome you all at ANACARE GA²FA 2024!

Prof. Dr. Antonella Muraro
GA²LEN ANACARE CORE Leader

Padua, Italy

Prof. Dr. Dr. h.c. Torsten Zuberbier
GA²LEN President

Berlin, Germany

GA²FA PRELIMINARY PROGRAM

Thursday, 5th September

GA²LEN ANACARE Anaphylaxis and Food Allergy Centres of Reference & Excellence Planning Session with all Centres of Excellence Leads

08:30 | 12:00 Internal meeting of the Network of Centres

12:00 | 13:00 Networking lunch

12:30 | 13:00 On Site Registration

SESSION 1 - FOOD ALLERGY: BREAKING NEWS

13:00 | 13:25 Learning from changing patterns in food allergy prevalence

13:25 | 13:50 Novel data on the health economic impact of food allergy and anaphylaxis

13:50 | 14:15 The new Codex regulations and its impact

SESSION 2 - FOOD ALLERGY: CUTTING EDGE IN DIAGNOSIS

14:15 | 14:40 Implementing a scoring system for oral food challenges via digital platform

14:40 | 15:05 Food allergy severity: biomarkers including 'omics

15:05 | 15:30 Diagnosing food allergy: implementing best practice

15:30 | 15:45 *Coffee break*

SESSION 3 - FOOD ALLERGY: ALLERGEN IMMUNOTHERAPY

15:45 | 16:10 Lesson from systems biology in food immunotherapy

16:10 | 16:35 What is the state of the art for food oral immunotherapy 4 years after the first product?

16:35 | 17:00 Epicutaneous immunotherapy: what is cooking?

WORKSHOPS 1 - DIAGNOSING FOOD ALLERGY

17:00 | 18:30 Participants to choose 3 of the following:
1A Implementing components and BAT in daily practice.
1B Practical guidance for oral food challenges
1C New perspectives: algorithm for diagnosing cow's milk allergy and Artificial intelligence with oral food challenges.
1D Do children and adults with food allergy have different reactions?

**MAIN
WORKSHOP**

Hands-on Workshop on Anaphylaxis acute treatment Emergency Physicians (*with hands-on training on mannequins*) running for 2 days

18:45 | 20:00 Poster Symposium: discussion and networking dinner

GA²FA PRELIMINARY PROGRAM

Friday, 6th September

SESSION 4 - ANAPHYLAXIS: HARMONIZING THE LANGUAGE

08:30 | 09:00 A new anaphylaxis definition consensus

09:00 | 09:30 White Paper on Anaphylaxis

09:30 | 10:00 Anaphylaxis at school: a GA2LEN ANACare Guidance

SESSION 5 - ANAPHYLAXIS: CHALLENGES

10:00 | 10:20 From fish to nuts: trends from the anaphylaxis registry and its clinical implications

10:20 | 10:40 Infant anaphylaxis: emerging triggers & severity

10:40 | 11:00 Refractory anaphylaxis

11:00 | 11:15 *Coffee break*

SESSION 6 - ANAPHYLAXIS TREATMENT

11:15 | 11:35 Pro-Con: Emergency services should always be called with anaphylaxis in the community

11:35 | 11:55 Pro-Con: Intramuscular adrenaline is always preferable over nasal adrenaline for anaphylaxis

12:00 | 13:00 Poster Symposium & Networking lunch

SESSION 7 - FOOD ALLERGY: PREVENTION

13:00 | 13:25 Early peanut introduction: protecting from unintended consequences

13:25 | 13:50 Lesson from the iREACH prevention trial

13:50 | 14:15 Combining early food introduction and skin barrier emollients

GA²FA PRELIMINARY PROGRAM

Friday, 6th September

WORKSHOPS 2 - FOOD ALLERGY: MANAGEMENT

- 14:15 | 16:15** Participants to choose 3 of the following:
- 2a Immunotherapy with multiple foods: cases studies
 - 2b Cow's milk and egg immunotherapy- comparing baked and raw food protocols across the world
 - 2c Oral immunotherapy guidance for patients and families
 - 2d Immunotherapy in young children
 - 2e Complementary food and formula for special needs
-

- 16:15 | 16:30** Coffee break

WORKSHOPS 3 - ANAPHYLAXIS: MANAGEMENT

- 16:30 | 18:00** Participants to choose 3 of the following:
- 3a Anaphylaxis in the elderly
 - 3b Supporting an adolescent patient at risk of anaphylaxis to become an expert adult patient
 - 3c Identifying the trigger in perioperative anaphylaxis
 - 3d Optimal approach to venom anaphylaxis: diagnosis and immunotherapy in venom allergy
 - 3e Managing anaphylaxis at school: novel outcomes for better integration

SESSION 8 - NEW ASPECTS OF FOOD ALLERGY: FPIES

- 18:00 | 18:20** Diagnosis of FPIES
-
- 18:20 | 18:40** Impact of FPIES on families
-
- 18:40 | 19:00** Should we be modifying the maternal diet?
-
- 19:00 | 20:00** Poster Symposium and Dinner

GA²FA PRELIMINARY PROGRAM

Saturday, 7th September

SESSION 9 - FOOD ALLERGY: BREAKING NEWS IN BIOLOGICALS

08:30 | 08:55 What can we learn from the OutMatch study?

08:55 | 09:20 How should we be using omalizumab in clinical practice?

09:20 | 09:45 New therapeutics in the pipeline and how might we use them?

SESSION 10 - IMPACT OF FOOD ALLERGY AND ANAPHYLAXIS ON PATIENTS AND THEIR FAMILIES

09:45 | 10:05 Thresholds: changing the patient's perspective

10:05 | 10:55 National Allergy & Anaphylaxis Programs: Australia, Sweden, UK: differences and opportunities

10:55 | 11:15 *Coffee break*

SESSION 11- LOOKING INTO THE FUTURE

11:15 | 11:40 How should we navigate the regulatory route with new therapeutics?
EMA representative

11:40 | 12:05 The WHO 2023 program for patient therapeutic education in non-communicable diseases: how is it applicable to anaphylaxis and food allergy ?

12:05 | 12:30 How could we use artificial Intelligence to improve our approach to food allergy and anaphylaxis?

12:30 | 13:30 Poster Prize and Networking lunch
